PRAJWAL BHATIA

Senior Frontend Engineer

India | +91 8708992511 | prajwal6bhatia@gmail.com | prajwalbhatia.com | linkedin.com/in/prajwalbhatia

SUMMARY

Senior frontend engineer with **7+ years of experience** building web applications with **React, TypeScript, JavaScript, and Next.js**. Specialized in **frontend architecture, performance, and reusable components**, with end-to-end feature ownership across React and Node.js.

TECHNICAL SKILLS

Frontend: React, TypeScript, JavaScript, Next.js, Redux Toolkit, RTK Query, TanStack Query, React Native, Material UI, Tailwind CSS, HTML, CSS, Vite
Architecture & Quality: System design, design systems, Core Web Vitals, WCAG, Jest, React Testing Library
Backend & Tools: Node.js, Express.js, REST APIs, PostgreSQL, TypeORM, Drizzle ORM, Redis, BullMQ, Git, CI/CD, Lighthouse, Datadog, Sentry

EXPERIENCE

Virtual Internships Apr 2025 - Sep 2026
Senior Software Engineer (SDE-3) *Remote, United Kingdom*

- Reduced Batch Selection **p75 LCP by 42% (5.45s to 3.17s)** and Intern Profile **p75 CLS by 97% (0.229 to 0.006)** through resource prioritization, deferred analytics, and layout stabilization (Datadog RUM).
- Designed and built the application's **autosave and draft-recovery system**, with local drafts, debounced API writes, validation-aware saves, and **72 tests** using **Jest and React Testing Library**.
- Built a reusable **React/TypeScript resume builder** in a shared profile library used by customer-facing and internal applications, with edit/view modes, section feedback, and keyboard accessibility.
- Owned frontend development for a configurable **5–8-step application redesign** with a backend engineer and designer: completion time fell from **28 to 12 minutes**, completion rate increased **24%**, and drop-off decreased **31%**.
- Refactored **Batch Selection** across React and Express, centralizing eligibility and flow decisions in backend services and introducing typed **RTK Query** hooks with **Jest and React Testing Library** coverage.
- Built a **Node.js, BullMQ, and Redis** thumbnail pipeline: Open Graph extraction processed approximately **55% of URLs in about one second**; Puppeteer fallback and cloud storage supported **95% processing success**.

Virtual Internships Jan 2023 - Apr 2025
Software Development Engineer 2 (Frontend) *Remote, United Kingdom*

- Developed multi-step **candidate recommendation workflows** with configurable selection order, eligibility-aware tables, company-contact selection, and customizable email previews.
- Built a reusable **React/TypeScript notes module** across candidate, company, recommendation, and placement workflows, supporting rich-text editing, contextual tagging, filtering, and paginated infinite scrolling.
- Modernized legacy **Ant Design and Elastic UI** screens with **Material UI**, standardizing reusable components and shared typography across candidate-discovery and operations workflows.

Extramarks Education India Pvt. Ltd. Jul 2021 - Jan 2023
Software Developer *Noida, India*

- Built interactive learning-video features across **React web and React Native** applications, synchronizing animations, games, PDFs, and timestamped assessments with milestone-based progress tracking.
- Implemented offline video downloads with profile-specific media caching and class, chapter, and topic filters.

Attosol Technologies Aug 2019 - Jul 2021
Associate Software Engineer *Kolkata, India*

- Built File Manager and Image Manager features with documented, reusable **React components** adopted across the platform.
- **Reduced redundant API calls by 50%** through client-side caching, improving dashboard responsiveness.

PROJECTS

Ownfolio | Creator | www.ownfolio.in Sep 2026 - Present
Built and launched a career-journaling platform for capturing contributions and evidence, requesting colleague acknowledgements, and publishing career profiles.
Stack: Next.js, React, Node.js, Express, PostgreSQL, Drizzle ORM, Redis, BullMQ, Zod, Railway.

EDUCATION AND HONORS

B.Tech in Computer Science, JMIT 2016 - 2020
Winner, Smart India Hackathon (National) | **Finalist**, hackCBS
